

# PTC and Microsoft

## Breaking the boundaries

Patrik Sjöstedt, EMEA Regional Business  
Leader, Manufacturing and Resources  
Clayton Fernandez, Global Director,  
Internet of Things

Microsoft and PTC have complementary strategies that enable digital transformation of the Enterprise

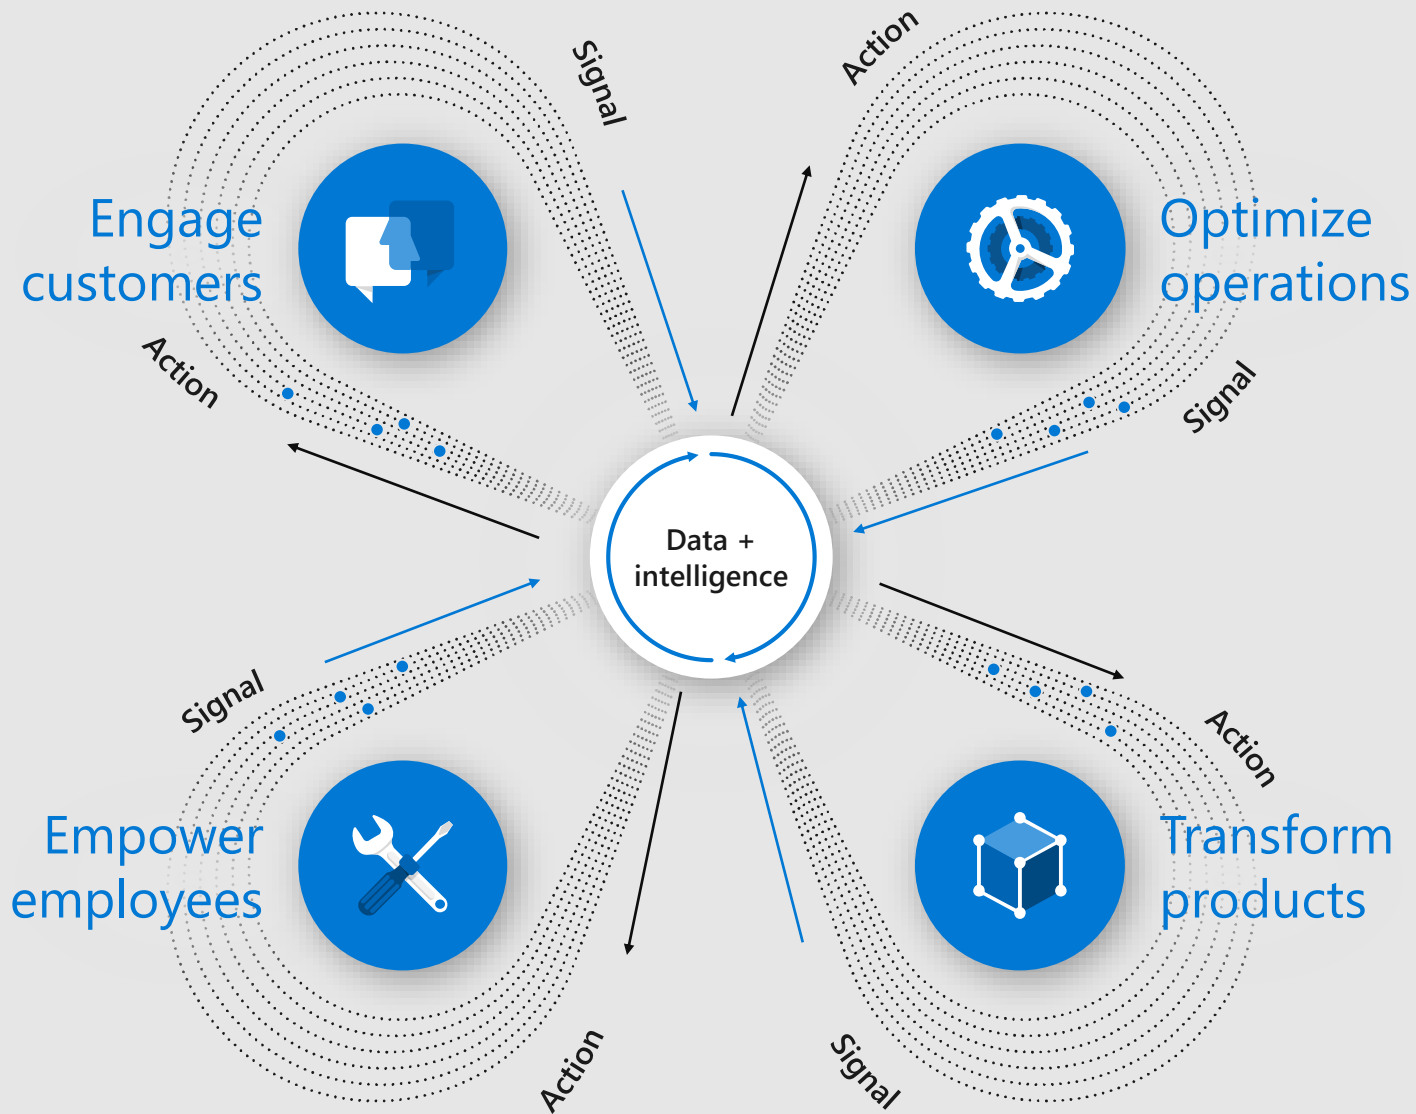

## **PTC enables Microsoft**

customers to connect their  
business processes to  
industrial applications

## **Microsoft enables PTC**

customers to connect  
industrial applications to  
Enterprise Processes

**80B**

Connected “things” by 2025  
generating 180ZB of data

**\$130B**

New monetization avenues  
due to IoT-related services

**80%**

Companies that increased  
revenue as a result of IoT  
implementation

**\$100M**

Average increase in  
operating income (avg. 8%)  
among the most digitally  
transformed enterprises

# MICROSOFT INVESTS \$5 BILLION IN IOT

Our goal is to give every customer the ability to **transform** their **businesses**, and the world at large, **with connected solutions**

<https://blogs.microsoft.com/iot/2018/04/04/microsoft-will-invest-5-billion-in-iot-heres-why>

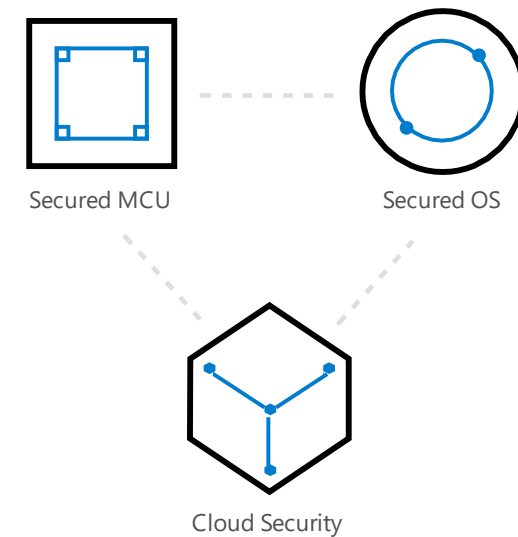

# Azure Sphere

A new **Azure Sphere class of MCUs**, from silicon partners, with built-in Microsoft security technology provide connectivity and a dependable **hardware root of trust**.

A new **Azure Sphere OS** secured by Microsoft for the devices 10+ year lifetime to create **a trustworthy platform** for new IoT experiences

The **Azure Sphere Security Service** guards every Azure Sphere device; it **brokers trust** for device-to-device and device-to-cloud communication, **detects emerging threats**, and **renews device security**

# Joint solution for industrial enterprises

ThingWorx Industrial Innovation Platform deployed  
on Microsoft Azure Cloud Services

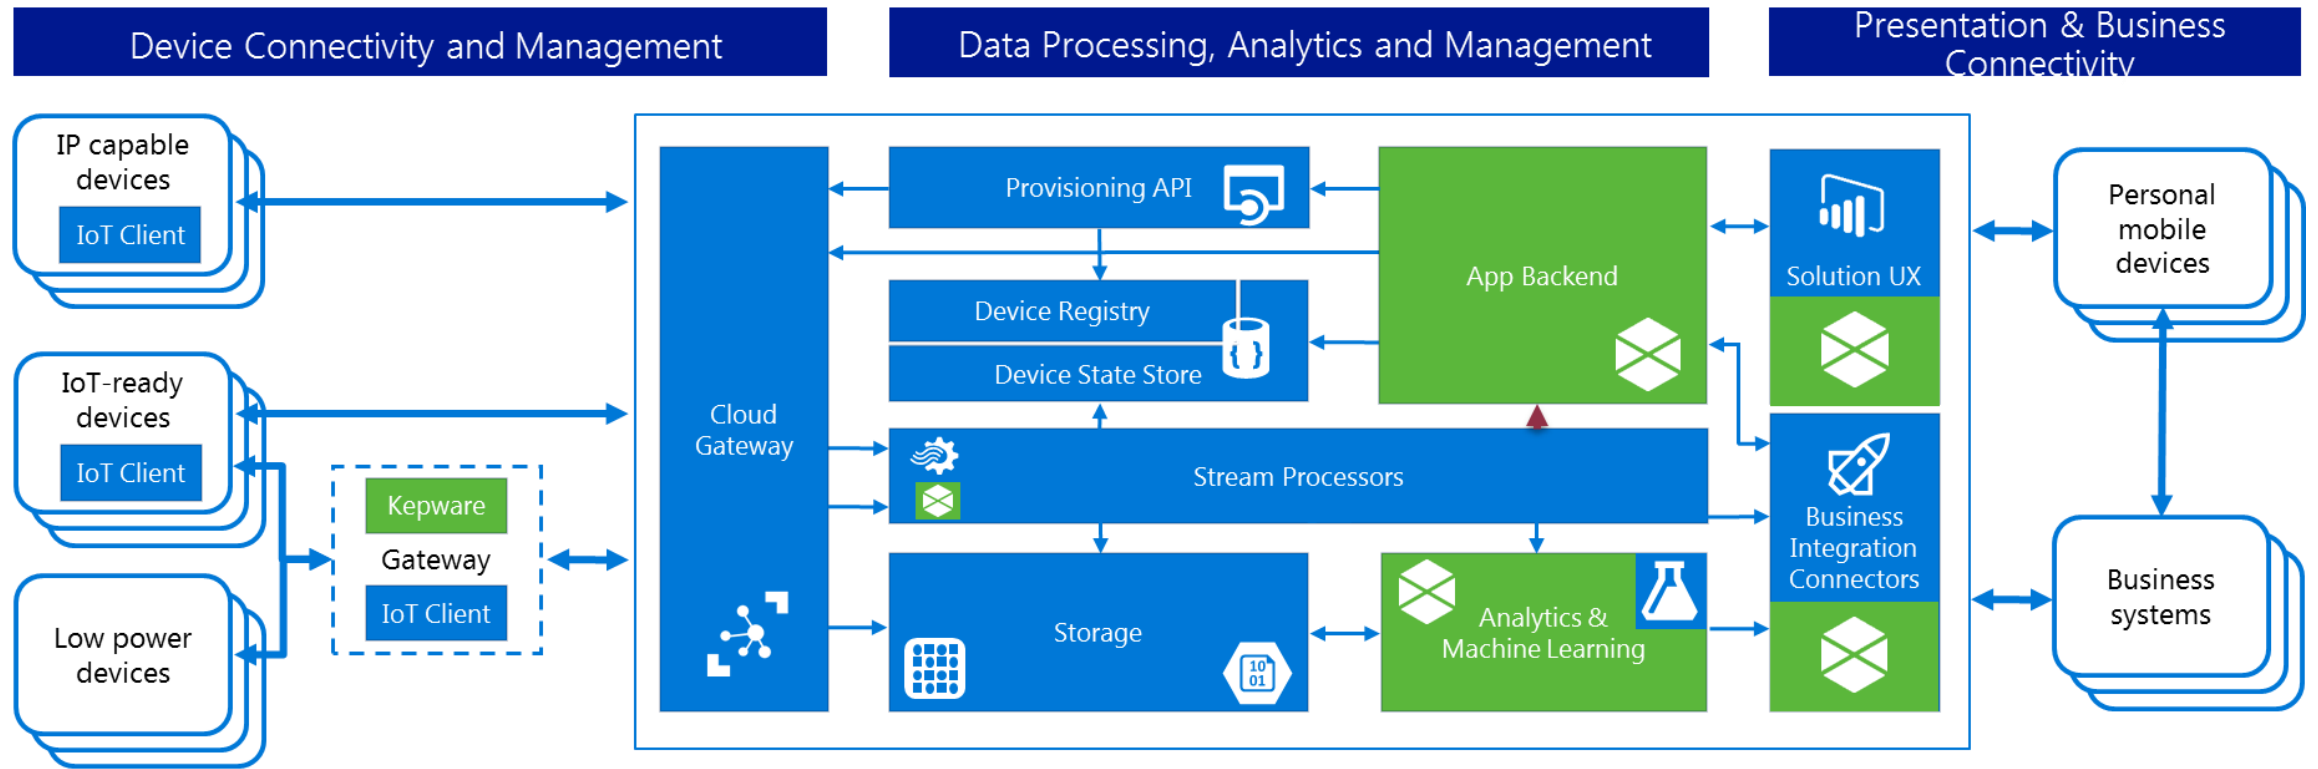

**PTC provides ThingWorx  
Industrial Innovation Platform**

to simplify and accelerate the  
development of robust industrial IoT applications and  
augmented reality experiences

**Microsoft provides  
Azure and Azure IoT Hub**

that provide global coverage and access to  
devices out of the box providing a wealth of  
data for ingestion

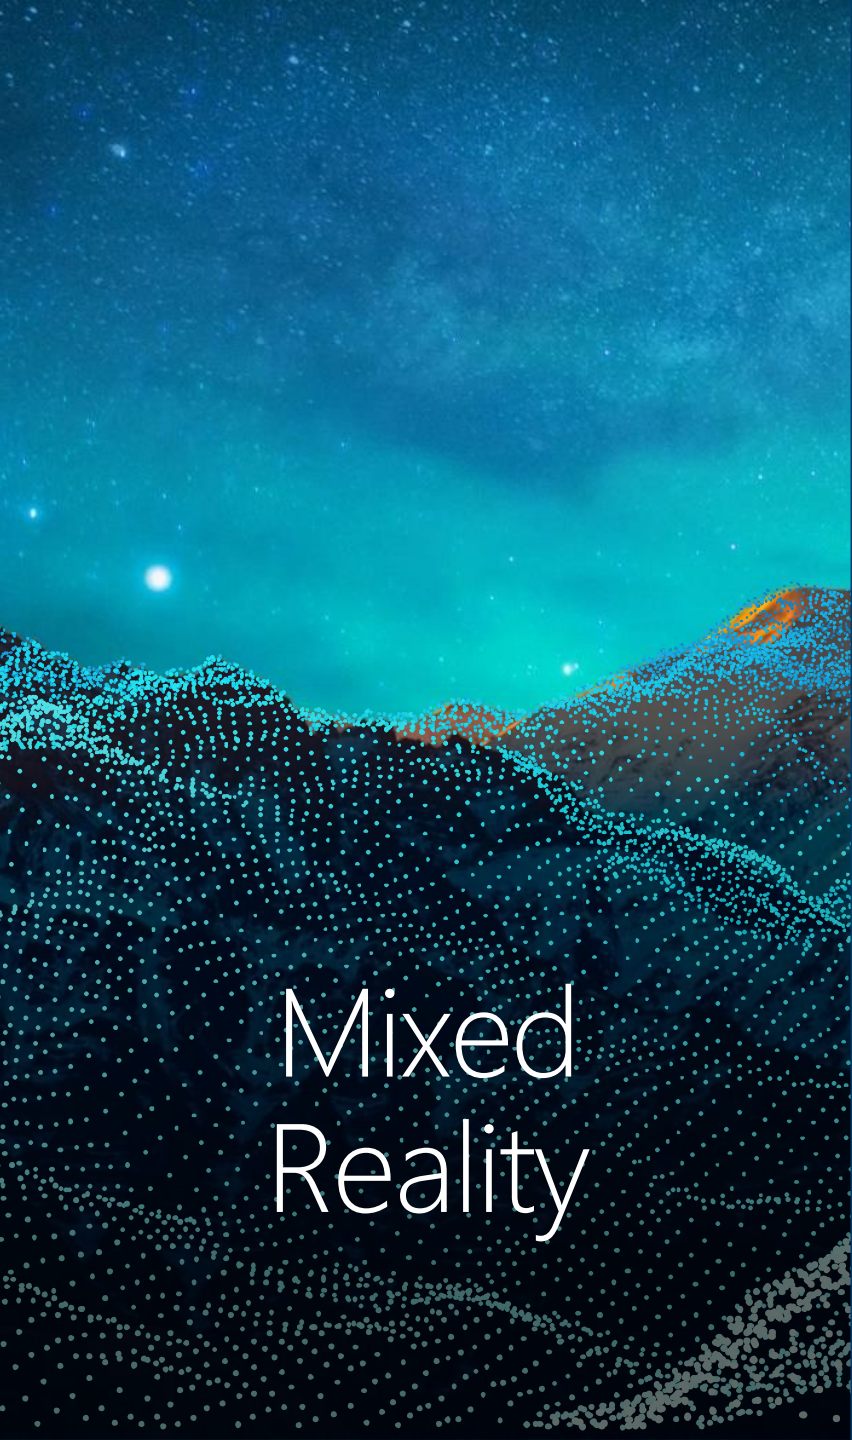

# Reference Architecture (customer example)

- Data Path
- - - Optional solution component
- Azure IoT solution component
- PTC Thingworx solution component

# Customer benefits with this partnership

			
Faster time to value	Accelerate application development on global scale	Better decision making via more data sources	Combined expertise to support any use case

**JABIL**

A low-angle photograph of a modern building facade. The building has a light-colored, tiled upper section and a glass-walled lower section. The sun is shining brightly from behind the building, creating a lens flare effect. The text 'JABARIL' is mounted on the upper part of the facade in large, dark, three-dimensional letters. Below it, on a glass panel, is the text 'GLOBAL BUSINESS CENTRE' in a smaller, dark font.

**JABARIL**

**GLOBAL BUSINESS CENTRE**

# Elekta Implements PTC's ThingWorx on Microsoft Azure for Next Generation Remote Service

“

Elekta IntelliMax, powered by PTC ThingWorx and Microsoft Azure, enables automated alerts predicting parts failures, proactive calls to customers to resolve issues that may cause interruptions, and immediate responses to customer service requests.

”

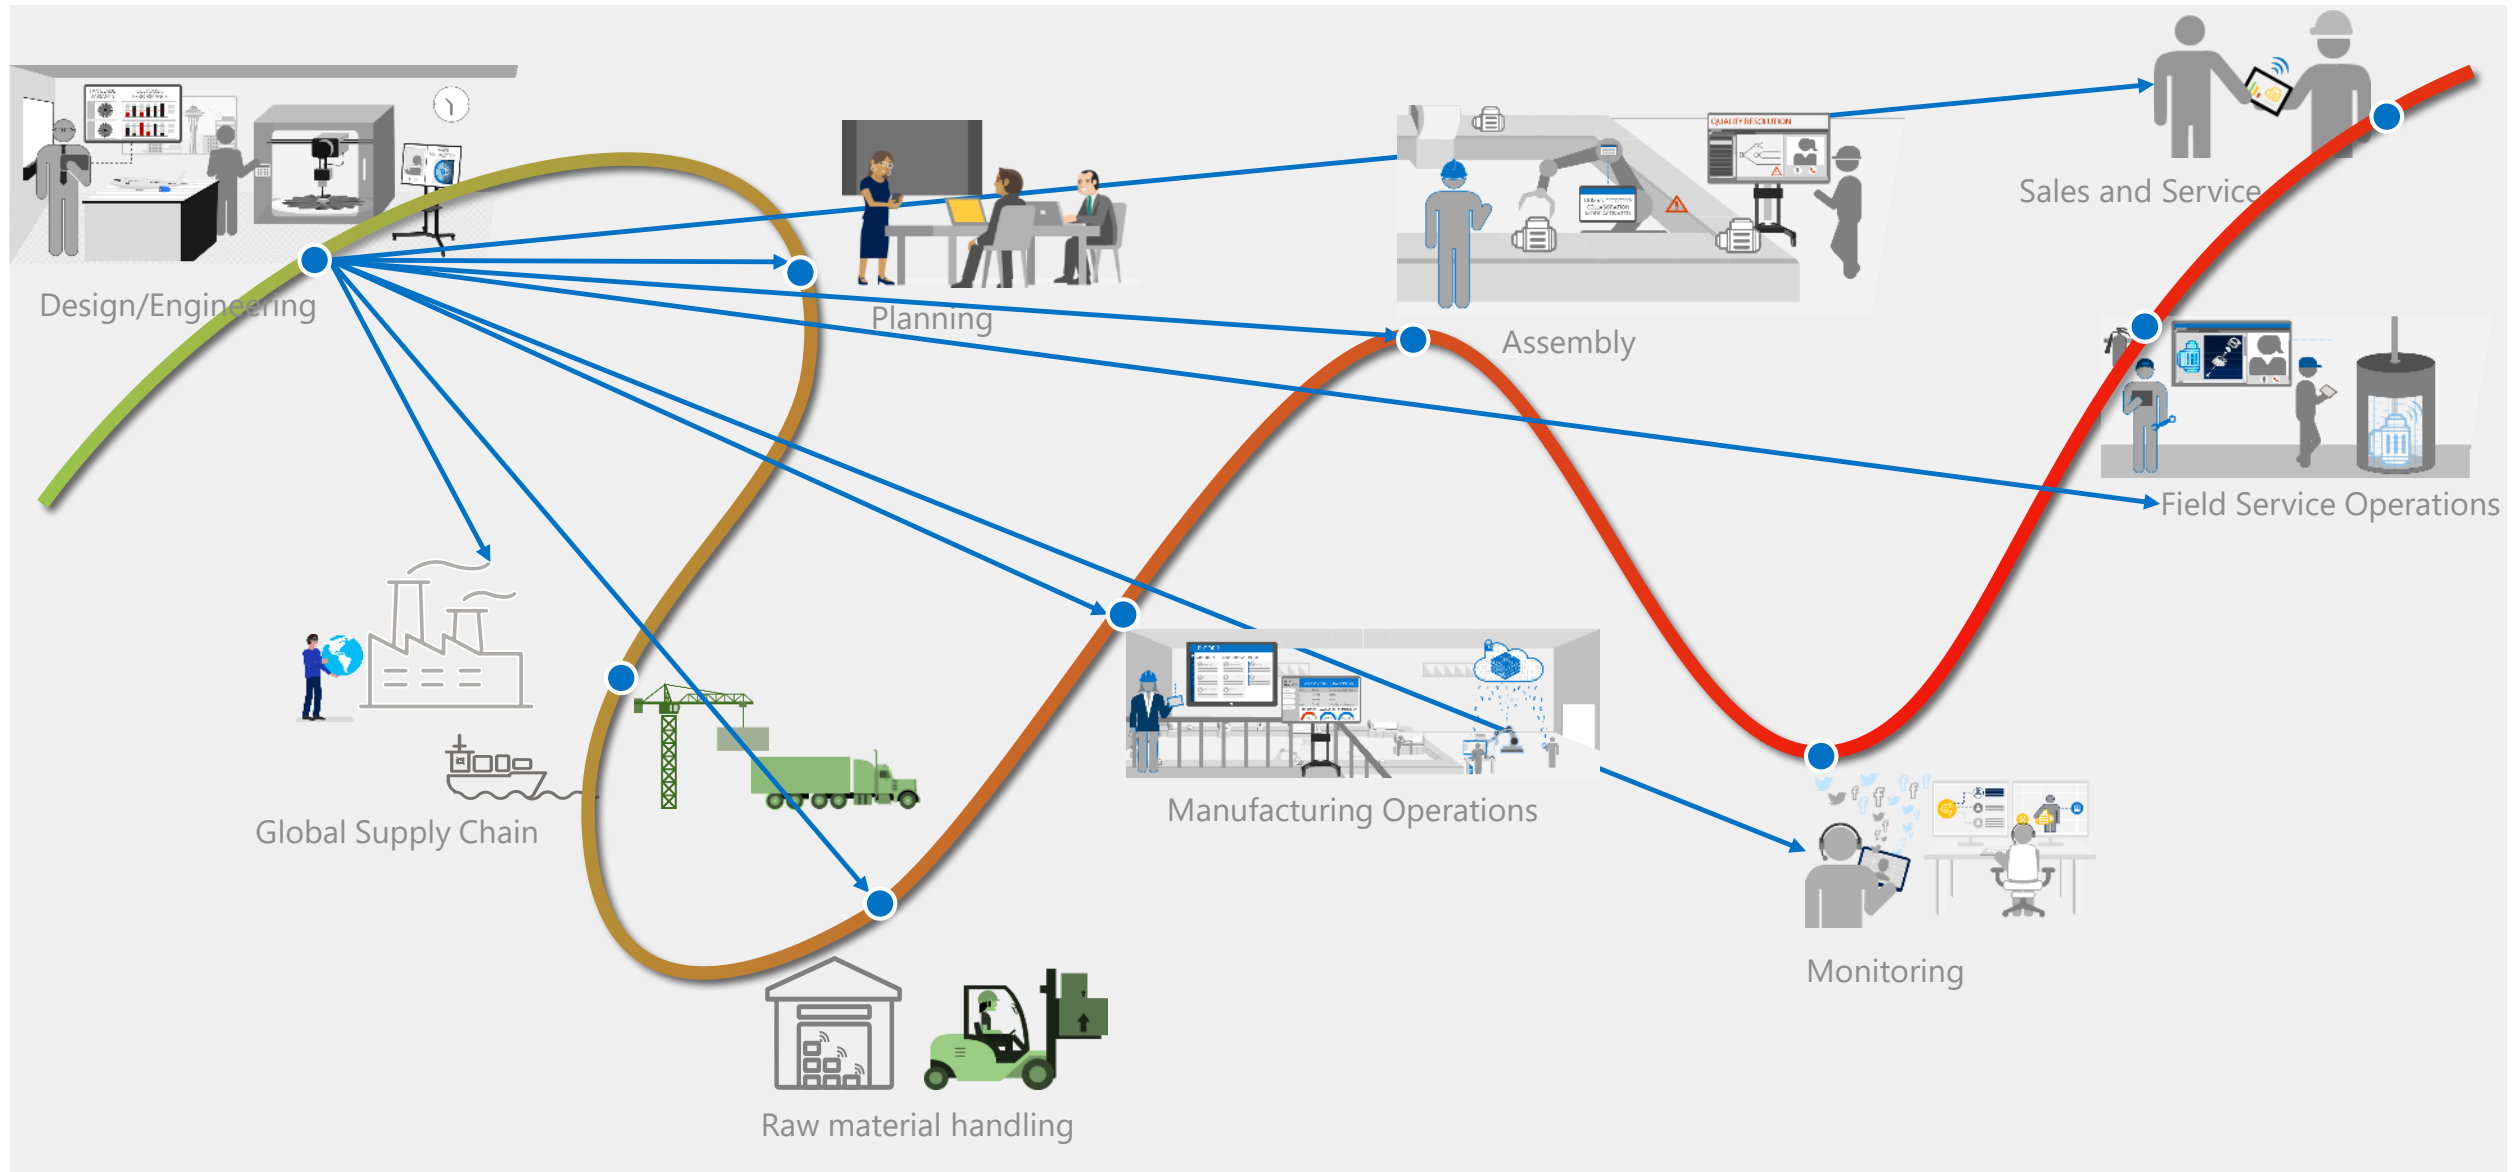

**– Daniel Kingham,  
Remote Service Program Director, Elekta**
